DETAILED ACTION

Ex Parte Quayle

Priority

The status on page 1 of the instant specification that the instant application is a CON of US application 09/653,030 is incorrect because the instant application is not a CON of US application 09/653,030. The instant application is not a copy of the '030 because tables 1-5 in '030 are missing from the instant specification.

Applicants should amend the cross-reference as follows: -- This application is a CIP of US application 09/653,030 filed on September 1, 2000, now abandoned, which claims priority from Provisional Application 60/152,011 filed on September 1, 1999. --

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: the instant specification is not a copy of US application 09/653,030. The instant specification is a CIP of US application 09/653,030. See MPEP 602.08(a).

Specification

The amendment filed 12/19/03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Tables 1, page 14; Table 2, page 17; Table III, page 24; Table IV, page 26; and Table 5, page 28 in the substitute specification.

The Tables have support in application 09/653,030 and provisional application 60/152,011. However, applicants did not properly incorporate by reference the specification from either application. Therefore, the substitute specification cannot be entered.

MPEP 201.06(c) recites:

A priority claim under 35 U.S.C. 120 in a continuation or divisional application does not amount to an incorporation by reference of the application(s) to which priority is claimed. For the incorporation by reference to be effective as a proper safeguard against the omission of a portion of a prior application, the incorporation by reference statement must be included in the specification-as-filed, or transmittal letter-as-filed, or in an amendment specifically referred to in an oath or declaration executing the application.

MPEP 201:06(c) further recites:

Mere reference to another application, patent, or publication is not an incorporation of anything therein into the application containing such reference for the purpose of the disclosure required by 35 U.S.C. 112, first paragraph. *In re de Seversky*, 474 F.2d 671, 177 USPQ 144 (CCPA 1973). See MPEP § 608.01(p).

Applicant is required to cancel the new matter in the reply to this Office Action.
